## SUMMARIZE

---

Ready to start a new career in Game Industry, I'm keen on learning more about various stages of game creation, game design and game development.

## EXPERIENCE

---

### Full-Stack Software Developer (current studies)

*Dec 2022 - now*

*Salon Seudun Ammattiopisto, Finland*

- **Front-end:** HTML, CSS and its frameworks, JavaScripts, gained a few web courses certificates and developed several websites projects.
- **Game development:** C# and Unity, created a few school projects. Currently polishing a 2D game of my own.
- **Back-end:** learning Python and OOP.
- **Other:** Command line, VS Code and Visual Studio, basics of Git.

### Course manager

**Sep 2017 - May 2018**

*Data Mining in Action (an on-site course in Data Science)*

- Managed the educational process
- Processed learning materials
- Managed social media
- Organised course events and conferences

### Private language tutor

**Oct 2011 - March 2022**

*Moscow & remote*

- Provided engaging lessons to all kinds of students, ensuring deep understanding and solid knowledge of a language.

## SKILLS

---
